

# **ROSWELL UFO TOURS**

**WITH DENNIS BALTHASER**

**ENJOY A PRIVATE TOUR AROUND ROSWELL AND THE OLD ROSWELL ARMY AIRFIELD BASE WITH NATIONALLY KNOWN UFO RESEARCHER, DENNIS BALTHASER.**

*“This Tour is a very detailed history lesson, and was one of the high points of my trip to Roswell.”*

*- Theo B., Amherst MA*

Since starting my research of the Roswell Incident over 25 years ago, my main objective has always been to obtain what factual information I could and share that information with the public in interviews, lectures or writing editorials. Doing tours would of course open another source for sharing my research. My first request for a tour was from a young lady from New Zealand. Since then I have done tours with people from England, Mexico and Canada, in addition to many from within the United States.

**Tour Price: \$100.00 (up to 4 People)**

**Tour Duration: 2 Hours**

***VISIT WHERE KEY WITNESSES LIVED IN 1947***

Public Relations Officer,  
Walter Haut

Major Jesse Marcel

Col. Blanchard,  
Base Commander

During the tours at each location on the itinerary I explain the significance of each location, the people that were involved there in 1947 and am able to share information that many had not heard or read about before in books or seen in TV documentaries. Many of the people that have taken the tours have commented afterwards that I provided an insight they hadn't heard or didn't know before taking the tour.

***TOUR THE BASE WHERE THE ACTION WAS PERTAINING TO THE 1947 ROSWELL UFO INCIDENT.***

The tours are fairly consistent in length, taking approximately 2 hours to complete. Photograph opportunities are available at each location, and I always welcome questions about a certain location in order to better inform those taking the tour about what occurred at a certain location or who or what was involved there. Unfortunately several of the structures or buildings no longer exist as they did in 1947, however I am able to explain what was at a certain location and the significance it had as related to the 1947 UFO Incident.

Approximately 17 different locations are visited during the tour, including the former homes of several of the first hand witnesses, and a drive by of several of the Museums. Since Roswell has a rich “old west history” a few of those locations are included, as well as a drive through of a portion of the historical district, with the various architecture used in homes years ago. One of the most popular portions of the tour involves driving down to the Roswell Industrial Air Park, known as the Roswell Army Airfield in 1947 when the UFO Incident occurred. Many of the buildings are still there some 60 years later including Building 84, where the bodies and debris were allegedly stored until being shipped out to other locations.
