Tour Information

About the Southwest UFO Discovery Tour

The Skies over New Mexico are far from empty. Not long after the world's first explosion of a nuclear device in New Mexico in 1945, a wave of UFO encounters were reported across the USA. Thousands of sightings were witnessed and documented by civilians and military personnel, many of them pilots. In the summer of 1947, the UFO phenomenon gained momentum when the Roswell-based 509th Bomb Group, the only military unit in the world with nuclear capabilities, issued a press statement claiming it had come into the possession of a flying saucer. Only hours after the military issued the press release, a government-sanctioned cover-up was started that has lasted well over 60 years. *Southwest UFO Discovery Tour* is a one-of-a-kind, extraordinary opportunity to discover the secrets of the atomic age, and to experience some of the most breathtaking scenery in America. From the doubtful skeptic to the 'Saucer Buff' to the serious UFO Researcher; this unique tour is ideal for anyone interested in learning more about the history of UFOs. See where Manhattan Project scientists developed the secret atomic bomb high atop a mesa in Los Alamos, and visit where they blew it up in a remote corner of the New Mexico desert. Join our *Southwest UFO Discovery Tour* and learn about the 1945 atomic "Trinity" test, the 1947 Roswell UFO Incident, and much more...
